7th International Coccidioidomycosis Symposium

LKSC - Stanford, CA

This 3-½ day symposium will offer workshops on genomics and soil isolation, diagnosis, and laboratory safety. These will be followed by sessions on fungal and human genomics, epidemiology, case management, new therapeutics, occupational health, and on basic science, pediatric and veterinary coccidioidomycosis. There will be a panel discussion on the new Infectious Diseases Society of America guidelines.

The meeting is appropriate for physicians (internists and pediatricians) and other allied health professionals, as well as epidemiologists, occupational health experts, basic scientists, and veterinarians.

Speakers are all experts in their field and represent both the United States and Latin America.

There will be up to 20 hours of category-1 CME available.

To go to the **Stanford CME** web site to **register**, click [here](#)

The meeting will also include **poster presentations** of submitted abstracts through the [Coccidioidomycosis Study Group](#)

Abstract submission information can be found by clicking [here](#).
